Personal Consulting

Clarifying the roles of the bank and the securities

[Gungin Securities]

• Aim to increase profits through advisory-style sales to wealthy customers that make use of our high level of expertise. Increase the number of sales staff by 29 in FY2024

• Management of approximately 5,700 customers to shift from The bank to Gungin Securities.

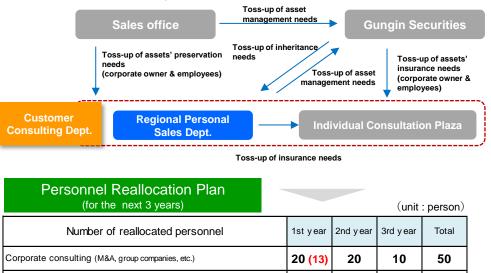

[Gunma Bank]

• Accumulation of stock earnings by proposing for asset formation for the working generation (NISA, etc.) and for the needs of the retiring generation for saving.

Establish Regional Personal Sales Dept. in Customer Consulting Dept. (Apr, 2025)

• Salespeople for financial assets in seven regions (Maebashi, Takasaki, Ota, Isesaki, Kiryu, Tatebayashi, and Kumagaya) have been consolidated into 13 locations.

• By consolidating staff, we will be able to comprehensively manage stores. By building long-term relationships with customers and strengthening channel collaboration, we will be able to provide high-quality proposals.

I. Capital Policy

Initiatives to enhancement of Corporate Value

Initiatives to improve PBR

- Accumulation of highly profitable assets
- Further increase non-interest business. income to 35 billion yen in FY2027
- Build an optimal capital structure
- ➡ Rise the core CET1 ratio to the range of 10.5% to 11.5%
- Improve shareholder returns ➡Progressive dividend system/ Flexibly implement acquisition of treasury shares
- Reduce information asymmetry
- → Improve IR activities and disclosure of non-financial information
- Improve expected growth rate

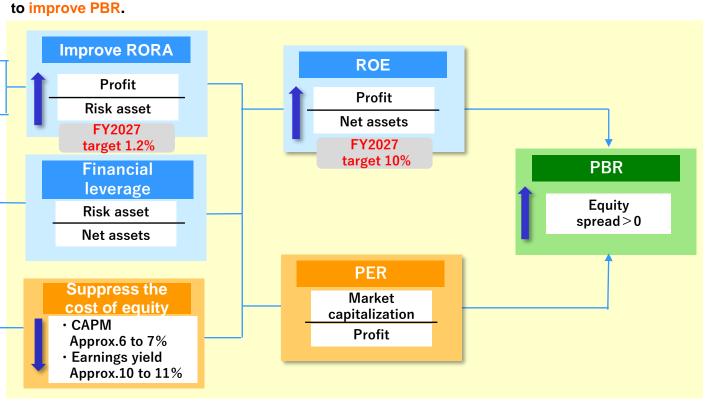

Core CET1 ratio (Mar.2025)

➡ Realize a virtuous cycle of social and economic value

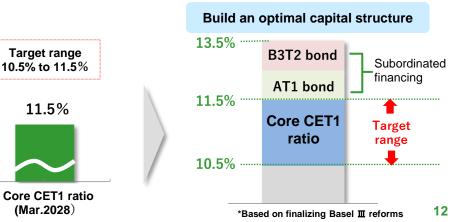

return

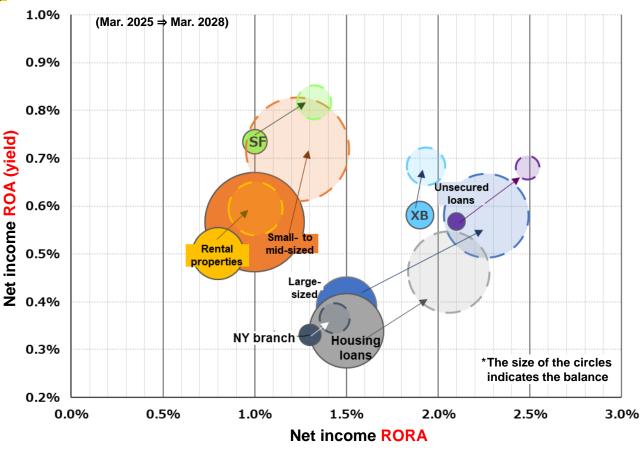

We will reverse the negative equity spread by improving ROE and suppressing the cost of equity

Implementation of "RORA Management"

诸 Gunma Bank

RORA of borrowers

Negative interest rate environment

Accumulating high RORA assets has led to improving profitability while maintaining soundness.

World with interest rates

- Raising RORA target since the deposit and loan profit margin will increase due to interest rate hikes
- · Growing importance of deposits, which serve as a source for loans
 - \Rightarrow Need to establish asset allocation that uses deposits effectively

Adapting to a world with interest rates

Deposits and loans

- (1) Raising RORA target (standard profit margin) • Target RORA 1.0% → 1.2%
- (2) Revising profitability logic when engaging in new transactions with highly rated large companies
 - Also including costs involved in deposit-related services, such as deposit administration costs and ATM costs, in calculations
- Adding requirement that fixed-interest transactions must secure profitability at least equal to national government bonds with the same maturity

(3) Raising short-term prime rate (from March 3, 2025)

(4) Raising awareness of acquiring deposits

- Raising deposit internal transfer rate, providing incentives for acquiring deposits
- Addition of deposit profits to sales branch commendation items
- Negotiations aimed at acquiring deposits equal to or greater than loan share
- Interest rate campaign aimed at acquiring individual deposits and starting special interest rate periods (money plan)

Securities

• While pursuing portfolio management that considers profit/loss from valuation and yield, disposing of low-yield bonds ahead of schedule based on market conditions

Measures to boost individual deposits

- Improving convenience of Gungin App
- Opening of ordinary deposit accounts and adding a feature to output PDF with deposit account details
- Introducing new app loan feature (scheduled for July 2025)
- Running campaigns aimed at expanding customer base and enhancing transactions by age group
- Acquiring deposits by leveraging ordinary deposits for settlement, targeting wealthy individuals who diversify their banking based on pay-off measures

Recognized issues

- Share of pension recipients is lower than that of salary transfer recipients. The transaction continuation rate from salary transfer to pension is around 70%, indicating there is room for improvement in acquiring new pension deposits.
- The ratio of salary transfer recipients to the number of employed people is trending downward. It is necessary to improve the stickiness of transactions.
- Accounts opened at a young age tend to have higher deposit balances in adulthood. Therefore, it is necessary to strengthen efforts to attract younger generations, as they are likely to become valuable customers in the future.

Shareholder Return

Total

Profit

Gunma Bank

The bank changed its shareholder return policy from "total shareholder return" to "dividend payout ratio" in Feb. 2025. (The change will be applied from the current year.) The bank introduced a progressive dividend system that aims to maintain or increase dividends.

Before

The Bank is setting a target of 40% of profit attributable to owners of parent for the ratio of total payout to shareholders combining stable cash dividend payments and the acquisition cost of treasury shares.

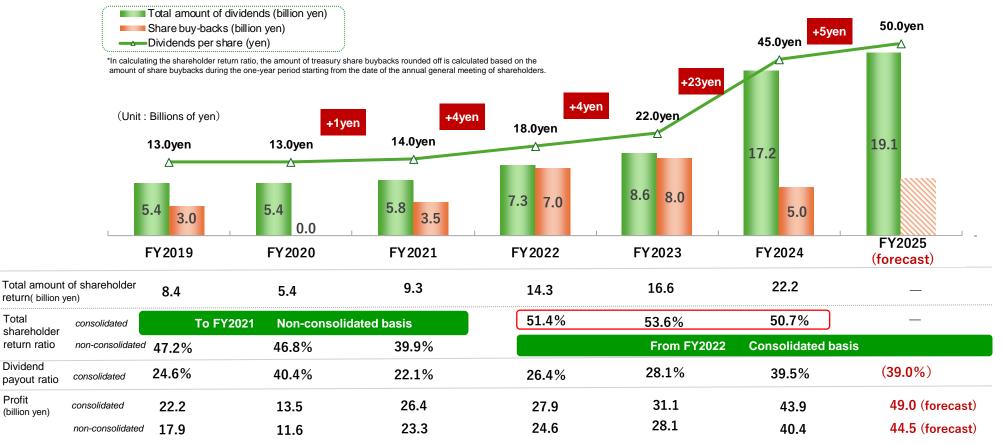

After

The Bank strives to achieve a payout ratio of 40% of profit attributable to owners of parent.

The bank will flexibly implement acquisition of treasury shares.

Achievements of shareholders return

Total shareholder return will exceed 50% for three consecutive fiscal years. The annual cash dividends per share for FY 2025, ending Mar. 31, 2026 is planned to be 50 yen, up 5 yen compared with the previous year. The dividend has increased for five consecutive fiscal years.

Reduction Target of Shares for Policy Purposes

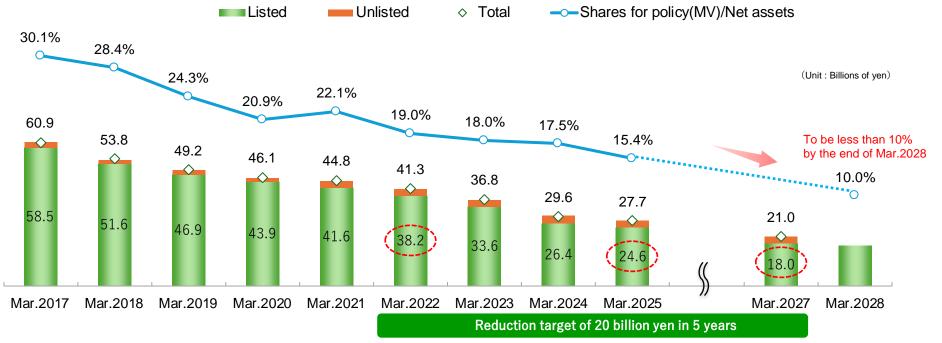

The Bank plans to reduce listed shares with a book value by 50% (- 20 billion yen) over 5 years during FY2022 ~ FY2026. Progress rate as of Mar. 2025 : 68% (-13.5 billion yen).

Shares for policy purposes policy and verification

- The Bank's policy is to hold shares for policy purposes when the significance of such holdings is recognized, such as to maintain and strengthen business relationships with customers and to revitalize the local economy, and to basically reduce the number of such holdings.
- With regard to each equity security held for policy purposes, the Bank examines the appropriateness of holding such shares comprehensively after examining economic rationality, using medium-long-term business relationships, RORA*.

(※) RORA = (Profit after deducting expenses and credit costs + dividends received) × (1-30.5%) / Risk assets of loans and shares

II. Memorandum of Understanding regarding Business Integration

- The growing interest in the progress of depopulation and DX and sustainability, coupled with the ongoing transition to a "world with interest rates" in the financial sector, has led to the emergence of new financial services including entries from other industry sectors. The expected role of regional financial institutions is expanding while the business environment is constantly changing, resulting in intensifying competition and enhanced business opportunities.
- G&DH Group recognizes that its mission as regional banks is to work together for regional revitalization aimed at sustainable growth
 of Gunma and Niigata prefectures and continuously contribute to the local community.

 The two companies will collaborate by bringing together their common strengths and respective strengths, leveraging economies of scale and the advantages of a vast network and information sharing, with the aim of maximizing top-line synergy

Increased contribution to customers and regions

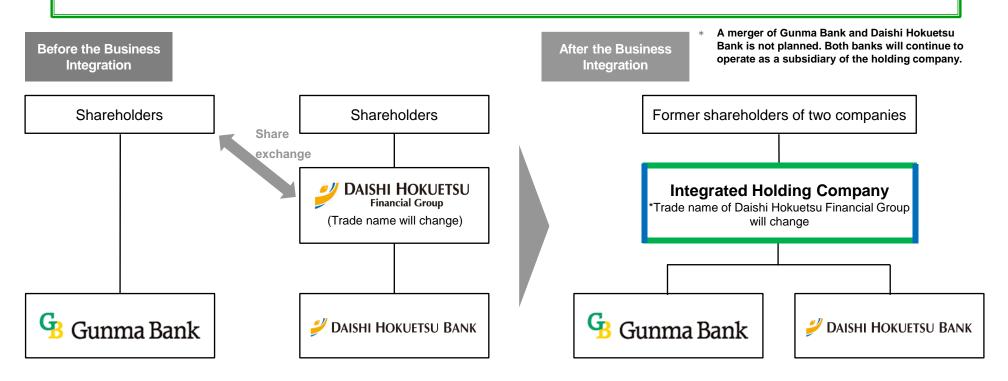

🔒 Gunma Bank

• The two companies will consider specific measures aimed at expeditiously achieving the purpose of the Business Integration and maximizing the corporate value, with a focus on realizing synergies.

| Increased contribution to customers and regions | Enhance the ability to respond to increasingly diverse and complex needs and challenges and provide high value-added services through the mutual use of know-how, information, and networks Strengthen the financial intermediary function (such as expanding risk-taking capabilities, jointly arranging syndicate loans and structured finance) Enhance proposal capabilities for business matching, business succession, M&A, etc., utilizing a wide-area network; provide start-up support Jointly develop and promote products and services Provide advanced consulting for asset management needs |
|--|---|
| Aggressive investment and streamlining that leverage economies of scale | Deliberate aggressive investment that leverage the economies of scale in information systems, DX and other priority areas ✓ Expand customer channels and provide high-quality and convenient services Streamlined operations and management ✓ Standardize and centralize administrative rocedures ✓ Jointly use office space and facilities ✓ Gunma Bank is considering a transition to the TSUBASA core banking system currently used by Daishi Hokuetsu Bank upon renewal of its core banking system scheduled after January 2029. This system is used by 5 banks, including Daishi Hokuetsu Bank. |
| Utilization and enhancement of human capital | Improve the value provided across G&DH Group by developing a system that maximizes the skills and expertise of the Two Companies' abundant human resources Aim to form a corporate group that is appealing to workers, and where a diverse array of personnel are able to grow through a broad range of careers without being bound by corporate boundaries, by assigning the right people to the right positions and promoting autonomous career development etc. |

- The Business Integration will take the form of a holding company via a commonly used approach. To accelerate the process of business integration, the holding company structure of Daishi Hokuetsu Financial Group will be utilized as the holding company for the new financial group.
- To implement the Business Integration, Gunma Bank will conduct a share exchange with the Integrated Holding Company. The trade name of the holding company of the new financial group will be set forth in the definitive agreement for the Business Integration.
 - ✓ In order to realize the new financial group's management philosophy and vision and enhance corporate value, the integrated holding company will serve as the command center of the group, responsible for planning, risk management, and other functions, and lead the formulation of the group's management policies and strategies, as well as the group collaboration efforts to maximize the effects of the integration.

• To facilitate the process of the Business Integration, the two companies set up a preparatory committee for the integration, which will focus on discussions for the Business Integration.

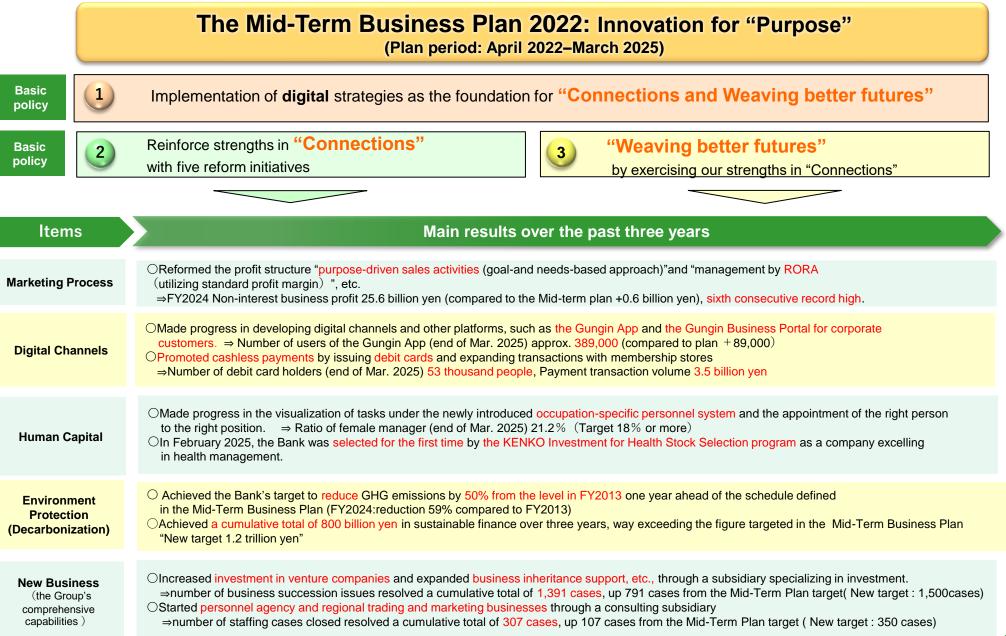

| Key Item | Overview |
|---------------------------------|--|
| Trade Name | The name of the integrated holding company at the time of the Business Integration will be specified in the definitive agreement for the Business Integration upon consultation between the two companies. |
| Head Office | The location of the head office of the integrated holding company at the time of the Business Integration will be specified in the definitive agreement for the Business Integration upon consultation between the two companies. |
| Form of Corporate Governance | Company with an Audit and Supervisory Committee |
| Share Exchange Ratio | The ratio will be determined based on the due diligence results and the share exchange ratio calculated by third-party valuation firms retained by each company, using methods deemed appropriate by such valuation firms. The share exchange ratio will be announced once determined. |

- The following dates are tentative and subject to change based on future discussions between the two companies.
- In addition, since the Business Integration is contingent upon obtaining necessary regulatory approvals (including the filing of a Form F-4 registration statement with the U.S. Securities and Exchange Commission and having it be declared effective), the process may be delayed depending on the approval status. Any such delays will be promptly made public.

Sustainability committee

- In April 2022, we established the Sustainability Committee. Its goal is to reinforce the Banks sustainability initiatives, develop management strategies from a mid- to long-term perspective, and enhance the effectiveness of measures.
- The Sustainability Committee chaired by the President will hold four meetings per year, in principle. The main matters it will discuss and consider include the formulation of policies related to sustainability initiatives and reports on the progress of the plan.

%The matters discussed and considered at each sustainability committee meeting are submitted to the executive committee for discussion at or reported. The committee will make four reports to the board of directors per year.

Risk management

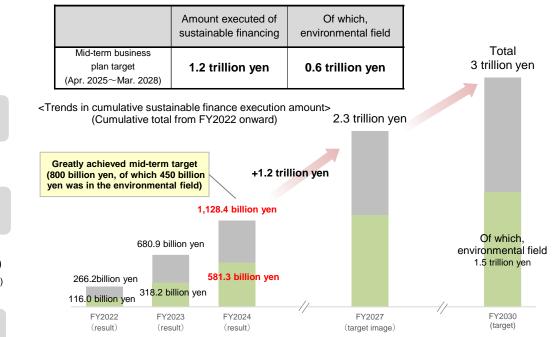

- The Bank recognizes that the physical and migration risks arising from climate change as a significant risks that could significantly impact the Bank's business operations and strategic and financial plans.
- The impact of the various risks identified through scenario analysis, etc. will be assess for different categories, such as "credit risks" and "operational risks". The bank will adopt a posture that allows it to manage them within the existing framework.

(Notes) 1. What is shown here is transition in borrower categories from the end of March 2024 to the end of March 2025.

 Outstanding balances are calculated based on self-assessments, including loans, acceptances and guarantees, and foreign exchanges (excluding overseas balances, government/municipal authorities, and individual borrowers). Those with outstanding balances not calculated based on self-assessments are aggregated into the "Normal" category.

3. "Others" in the table above is the number of borrowers who have resolved outstanding balances in FY2024 by full collection or repayment, final disposal (such as sale of loans), or other means. The table below calculates the reduced amount.

Expected loss classification (i) is calculated as borrowers requiring caution other than special caution, excluding those with realistic, comprehensive business reconstruction plans.
 Expected loss classification (ii) is calculated as borrowers requiring caution other than special caution who have realistic, comprehensive business reconstruction plans and borrower requiring special attention.
